Hi Damon, Daniel,

Please find attached potential QSAC Render addressing comments raised.

- Flags around the right way
- the hoarding line tweaked to remove the diversion and maintain an even oval shape.

Brad

Subject: QSAC

Hi Brad

No further changes from me once the flag poles are corrected.

Belinda - not sure if you were aware Graham requested a render on QSAC. I am not sure of the immediate purpose but will aid consultation and discussion.

Do you have any comment from a Comms perspective before we finalise, noting within OPIO we don't intend to release it beyond state agencies at this stage.

Regards
Damon

Hi All,

Please find proposed final render from Populous. Any further comments appreciated so this can be closed out.

Boxing kangaroos changed to aussie flags. Have already replied to let populous know that it appears the aussie flags are backwards – i.e. the union jack is at the end away from the “flag pole”.

Brad

Thank you.

Have briefed Populous. Will be sorted.

Only feedback from Graham was the boxing kangaroo flags look a bit odd when they are upside down. So apart from tidying that up we can finalise.

Regards
Damon

I wasn't such a fan of that look.

We could make it blue to match current / my home state?

Looks good – will run it past Graham at 10:30am.

Where's the maroon track?

Hey mate,

Please see final draft of the render. We have a few more tidy up things to do and adjustments to make, but I wanted to pass it on in case there were any further comments from your side before we finalise it.

thanks,
