Local Industry participation plans

Dear Mr Broe,

Thank you for your letter of 1 March 2013 about local industry participation plans and the recently developed QRC Code of Conduct for Local Content.

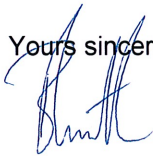

In line with the Queensland Government's proposed policy change, we request that the Queensland Curtis LNG Project Condition 15 Local Business be amended to enable the QCLNG Project to continue with actions outlined in Condition 15 until 1 January 2016.

We intend to adopt the QRC code.

This change will maintain consistency with Government policy and the practices of other proponents seeking similar changes, and make reporting arrangements more efficient.

QGC also requests that the fee for this project change be waived.

Yours sincerely

Brett Smith
Vice President, Sustainability
